- **Technology Expertise:** IoT | AIoT | Digital & Analogue Electronics | Power Electronics | Control Systems | Wireless Communication | IoT | Web/ App Applications (device on cloud)

## MISSION & VISION

- **VISION:** Be the global Go-To technology partner for curated “technology first” solutions for the world.
- **MISSION:** Elimination of gap b/w idea and solution through easy availability of technology.

# WHAT WE DO?

## WE SOLVE

### INDUSTRIES WE PROVIDE ELECTRONICS SOLUTIONS TO

Metal & Mining | Consumer Electronics | Automotive | Energy & Utilities | Financial Services and Banking | Industrial RPA | Retail & E-com | Smart Cities and Urban Planning | Transportation & Logistics | Healthcare and Medical Devices

## WE DESIGN

### OUR SOLUTION INCLUDE R&D AND ENGINEERING FROM THE FOLLOWING AREAS

IoT | AIoT | Analog & Digital electronics | Printed Circuit Board (PCB) | Firmware Development | Embedded Systems | Power Electronics | Signal Processing | Wireless Communication Systems | Control Systems Engineering | Sensors and Transducers | User Interface (UI) and User Experience (UX) | AI | Engineering design

## WE MANUFACTURE

### STATE OF ART MANUFACTURING ECOSYSTEM INCLUDES FOLLOWING

Global procurement supply chain | 200+ Strategic partnerships with key component manufacturers, Assemblers & Testing Labs | Automated & Manual PCB assembly facility | Quality inspection facility ( ICT, FCT & AOI) | 100% Material traceability solution | Volume flexibility ( Proto or Large production ) | Custom metal & plastic enclosure design and fabrication

Respected Sir, Mam

Indian Electrical and Electronics Manufacturers Association(IEEMA) would like to convey sincere gratitude for the successful conclusion of the 2<sup>nd</sup> edition of ETechNxt @ ELECRAMA 2020.

Delegates who attended the tracks found the content informative and worthwhile. We believe the diverse and dynamic sessions leading with the right content have provided the delegates with the required knowledge and insights.

Your support, time, and efforts encouraged and helped us make this event a success, and your enthusiasm and positive spirit helped us make four days' time productive, focused, and interactive.

We chose Achiredo for their invaluable expertise and vision for future technology. We partnered with them to develop the sensor for Contactless drinking water fountain operation. They have been outstanding in delivering results far beyond our expectations. On time delivery and in depth knowledge about technology is the back bone of the achiredo team. Million good wishes for future project.

Through the Vedanta Spark initiative, we are partnering with several exciting #startups to deploy innovative solutions within our #operations. For example, Achiredo Technologies, which specialises in developing unique elec ...see more

I am a Zomato Rider. I work at Zomato by renting E-Bike from Achiredo.

I earn a good amount per day through Zomato delivery and pay the rent (Rs. 450/ week) of Achiredo Bike. The cycle works fine, and if there is any problem with the bike, Achiredo usually solves them as soon as possible. Achiredo is an excellent company. Now have requested another bike for rental for my brother as he will join as a delivery boy.
